

Petra Gergely

UI/UX designer with front-end skills

hello@petragergely.dk

www.petragergely.dk

Resumé

I am a **versatile** UI designer with a good understanding of UX and **front-end development skills**. I'm excited to work with UI and UX design, from **wireframes** and **prototypes**, through **user testing**, to actual design and implementation.

I use my education and experience in **marketing** to create **designs** that **meet business needs**.

I thrive best in a **team**, but ready to work **individually**, as well.

Work experience

2019 November - Now

Front-end section leader at Akademi for Programming, Oslo

- Teaching basic CSS, HTML, JavaScript and UI/UX design 2 times a year
